PROFILE

Junior software developer building full-stack Python/Flask applications with relational databases, authentication, CRUD workflows, and analytics dashboards. Background in teaching, translation, and comparative literature supports requirements analysis, clear documentation, and bilingual collaboration.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript | **Frontend:** HTML, CSS, Jinja, Chart.js

Backend: Flask, SQLAlchemy, Flask-Login, Flask-WTF, Flask-Migrate

Data & deployment: PostgreSQL, SQLite, Neon, Render, Gunicorn | **Tools:** Git, GitHub, VS Code

PROJECTS

SessionIQ | Training Analytics

[Live demo](#) | [GitHub](#)

Flask, SQLAlchemy, PostgreSQL, Jinja, Chart.js, Render, Neon, Gunicorn

- Built a training analytics app with activity/session CRUD, authentication, protected routes, per-user data isolation, and CSV export.
- Transformed session data into daily workload, 7-/28-day rolling load, weekly comparisons, and ACWR workload flags, with interactive charts and activity filters.
- Deployed a public demo with isolated visitor sessions, sample history, and reset controls.

Smart Habit Tracker | Habit Tracking

[Live demo](#) | [GitHub](#)

Flask, SQLAlchemy, PostgreSQL, SQLite, HTML, CSS, Render, Neon, Gunicorn

- Built category and habit CRUD, completion logs, duplicate-entry safeguards, and a Complete All Today action.
- Created weekly totals, habit streaks, completion summaries, and a 60-day heatmap using relational models and aggregation queries.
- Deployed a public demo with separate visitor data, sample habits, and reset controls.

EXPERIENCE

Teacher & Tutor - Spanish & English | Aug 2022 - Present

- Adapt instruction to different learning needs; create lessons, practice activities, and assessments.
- Track student progress and adjust explanations using performance patterns.

Translator & Editor - NUC University | Aug 2023 - Present

- Translate and edit academic and institutional materials in English and Spanish with consistent terminology and formatting.
- Collaborate with faculty and staff to meet deadlines and clarify written deliverables.

EDUCATION & LANGUAGES

CS50x: Introduction to Computer Science (2025) - Harvard University

MA, Comparative Literature - Wesleyan University

BA, Comparative Literature - University of Puerto Rico, Río Piedras

Languages: English and Spanish - Fluent
